OBAMA CARE; THE NEXT CIVIL WAR

Twenty Six States are prepared to secede from the Union if the Supreme Court votes to support Obama Care.

The so called "Obama Care" is not about Health Care, but rather about taking hard earned money from the Working Slave Class, and giving it to the Wealthy Wall Street Ruling Class. This is a Civil War between the Working Slave Class, and the Wealthy Wall Street Ruling Class.

The Civil War will take to the Streets, rather than submit to the Slave-Master Insurance Companies. The People will not be whipped into handing over Slave Wage Payments to the Bailed-out Bankrupt Insurance Companies.

Economic Slavery cracks the whip on even the upper-Middle Class, who struggle to make payments on long-term Home Loan Mortgages, Car Loans, and Credit Cards, with the rising price of Gas, Oil, Food, Clothing, and the increasing cost of living inflation. While the Confederate States attempt to draw Battle lines in the Supreme Court, the true Battle lines are on the Streets.

THE LOSE-LOSE SCENARIO

1.) If the Supreme Court votes to support Obama Care, the Dictatorship will be put into motion, and the Federal Government will force a series of individual contracts for money payments to the Wall Street Insurance Companies. The Federal Government hopes that this will inject enough money into Wall Street to avoid default on several multi-trillion \$ dollar Bail-Outs. The People will then be unable to keep-up payments to support the Credit-Debt Economy, and massive defaults will collapse the Wall Street Market. The People will be stripped of their Buying Power. This will bring about the worst and Final Great Depression.

When the People are stripped of Buying Power, there is neither a Buyer's Market or a Seller's Market. There is a total collapse of the Monetary System.

2.) If the Supreme Court votes to over-rule Obama Care, then the Bailed-out Wall Street Insurance Companies will lack funds to invest in other Bailed-out Wall Street Companies. The Federal Government will then eat the defaults on the multi-trillion \$ dollar Bail-outs, and Wall Street will again be Bankrupt. The only next move by the Federal Government will be more Taxes to pay for more Bail-outs. This increase of Taxes will also strip the People of their Buying Power, and there is neither a Buyer's Market or a Seller's Market. This is a total collapse of the Monetary System.

DEATH OF THE DOLLAR

With the Death of the Dollar, value will return to the American Worker. The value of the American Worker cannot be taken away. The American Worker has value because they can work to produce food, housing, transportation, products, services, and health care. WE THE PEOPLE of the United States, in order to form a more perfect Union, are the ultimate sovereign. See, Chisholm v. Georgia, 2 U.S. 419, 471 (1793) (Here we see the People acting as sovereigns of the whole country)
